WELFARE REFORM DATA MONITORING

This monitoring report is part of a broad ranging project to assess the impact of Michigan's welfare reform initiatives. It is intended to be a management information and project monitoring tool but is not, in itself, an evaluation of Michigan's welfare reform.

- The report includes data assembled from many source documents and may differ from data displayed in various Agency publications.
- Some of the data displayed is fiscal year data; other is calendar year data. Displays are appropriately marked.
- Some of the data is point-in-time and some is cumulative. Cumulative data will be greater than point-in-time data.
- No conclusions have been or should be drawn from the data and its use is subject to interpretation.

WELFARE REFORM IN MICHIGAN

Overview

TO STRENGTHEN MICHIGAN FAMILIES

Michigan implemented *To Strengthen Michigan Families (TSMF)* in October 1992. Based on federal policy waivers, this welfare reform initiative encouraged work and personal responsibility. TSMF included policies that:

- Encouraged employment.
- Targeted child support.
- Increased personal responsibility.
- Involved communities.

Among the TSMF policy initiatives were the following:

- Encouraging parents to remain together by eliminating work history requirements and work limitations.
- Disregarding the first \$200 plus 20% of the remaining earned income from cash assistance payments.
- Providing transitional child care and medical coverage when cash assistance ends due to earnings.
- Enhancing child support enforcement tools.
- Requiring minor parents to live at home or with an adult guardian.

To symbolize Michigan's TSMF efforts and to reflect the department's changing mission, in 1995 the Michigan Department of Social Services was renamed the Michigan Family Independence Agency. On March 15, 2005 the Michigan Family Independence Agency was renamed the Michigan Department of Human Services (DHS).

In 1995, DHS also instituted new sanction policies to require cash assistance recipients to cooperate with employment and training expectations. Failure to cooperate resulted in cash assistance and food assistance payments being reduced by 25%. After 12 months of non-cooperation the cash assistance and food assistance cases were closed.

Policies were also implemented during this time to require FIP applicants to attend orientation sessions conducted by the Family Independence Agency and Michigan Works! Agency as a condition of eligibility for benefits. The orientations were used to outline job readiness and job search requirements as a condition of eligibility.

EMPLOYMENT REQUIREMENTS

Jobs, Education and Training (JET) began in June, 2006. The goal of JET is to achieve employment through training or education for all FIP clients who are required to work. DHS staff will work with clients to identify barriers to employment and to provide the necessary resources to eliminate those barriers. Federal regulations require that states with TANF programs meet federal work participation requirements.

TEMPORARY ASSISTANCE FOR NEEDY FAMILIES

Federal welfare reform legislation created the ***Temporary Assistance for Needy Families (TANF)*** block grant that became effective in October 1996. TANF consolidated federal funding for Aid to Families with Dependent Children (AFDC), Emergency Assistance and AFDC job training into a single block grant. Separate funding was provided for child care to support work and work-related activities.

The flexibility contained in TANF allows Michigan to continue and expand policies implemented under TSMF that encourage self-sufficiency and support independence. TANF is used to fund Michigan's cash assistance program for families in addition to a range of financial and social services for those who are poor or vulnerable.

TANF policies and initiatives implemented in 1996 and 1997 included:

- The Aid to Families with Dependent Children Program became the Michigan Family Independence Program. This change emphasized and supported Michigan's welfare reform philosophy and goal of self-sufficiency.
- Eligibility, employment and day care workers became Family Independence Specialists, who called on applicants/recipients in their homes and provided social services. Other workers became Eligibility Specialists who handled non-family cases.
- Sanctions were implemented for new FIP recipients who failed to cooperate with employment and training requirements. Those who did not cooperate with employment and training expectations had their grant and food assistance reduced by 25%. After four months of non-cooperation cases were closed.
- To encourage work, FIP applications counted only cash assets, and the personal asset limit for eligibility was increased to \$3,000.

TANF policies implemented in 1998 and 1999 included:

- All employable adult recipients were referred to Work First and were required to remain active (or face case closure).
- Michigan Works! Agencies expanded opportunities for post-employment training for recipients.
- Michigan Works! Agencies combined education and training, classroom time and unsubsidized employment as ways to meet TANF work participation requirements.

TANF policies implemented from 2000 to the present include:

- Transitional Medical Assistance was implemented to provide one-year of additional Medicaid coverage to working families not covered by health care whose cash assistance case closed because of income.
- Cash assistance recipients are required to participate in employment or employment-related activities up to 40 hours per week.
- The sanction for failure to cooperate with employment and training requirements is immediate closure.
- Jobs, Employment and Training (JET) a program designed to help specified adult recipients become employed.

FINANCIAL ASSISTANCE

Overview

Financial assistance programs help to meet the financial needs of qualifying individuals and families who need temporary assistance.

Family Independence Program

The Family Independence Program (FIP) provides monthly cash assistance benefits for families in need. This cash assistance helps offset some of the costs of housing, heat, utilities, personal needs (clothing, household items, *etc.*), and food. FIP recipients are also eligible for Food Assistance benefits, Medicaid and a range of employment and family support services.

Food Assistance Program

The Food Assistance Program is a financial resource to help low-income individuals and families purchase food. Food Assistance benefits cannot be used to purchase nonfood items such as soap, over-the-counter medicines or vitamins, paper products, *etc.*

State Disability Assistance Program

State Disability Assistance (SDA) is a financial assistance program for disabled adults who are unable to work. SDA recipients have little or no resources to buy food, clothing, shelter and personal items. The monthly cash assistance is intended to cover these basic needs. Recipients are also eligible for Food Assistance.

Supplemental Security Income

Supplemental Security Income (SSI) provides financial assistance to those who are aged, blind or disabled. Eligibility is based on income and assets. Funding is primarily federal and is administered through the Social Security Administration. The state provides and funds an additional supplemental benefit. SSI recipients are automatically eligible for Medicaid.

Child Development and Care

The Child Development and Care (CDC) Program helps low-income families with child care costs related to employment, education activities and for treatment of a social or health circumstance. Families who receive assistance or services under certain DHS programs are automatically eligible for CDC benefits without considering the amount of their income. Child Care benefits for low-income families are based on family size and income.

Child Support Program

The Child Support Program assists in obtaining child support benefits from absent parents, locating parents, establishing and enforcing support orders, establishing paternity, and collecting child support payments. In Michigan, there is a cooperative effort with the Friends of the Court, prosecuting attorneys, and Office of Child Support staff to provide services. Services are available to anyone receiving public assistance or upon signed request.

TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (TANF)

Five Year Time Limit

In August 1996 “The Personal Responsibility and Work Opportunity Reconciliation Act of 1996” or PRWORA was signed into law. The new welfare reform law (Public Law 104-193) created a program called Temporary Assistance for Needy Families or TANF, in recognition of its focus on moving recipients into work and time-limited assistance. The law stipulates that states may not use federal TANF funds to provide assistance to a family that includes an adult who has received assistance for more than five years. The five-year limit on federal funding is calculated as a cumulative total of 60 months beginning with October 1996.

The law allows some families to receive assistance from federal TANF funds for more than five years based on hardship. The average monthly number of families in hardship status may not exceed 20% of the state’s average monthly caseload during that fiscal year.

In Michigan:

- Family Independence Program (FIP) recipients begin receiving federally funded TANF assistance in October 1996. FIP recipients began exceeding the 60-month limit on federally funded benefits in October 2001 (the first month of FY 2002).
- Michigan defines hardship as length of time on assistance. Thus, all cases exceeding the 60-month time limit will meet the hardship definition.
- The number of FIP cases that have exceeded the 60-month time reached 9, 469 (13.47% of the caseload) in FY 2007.
- The estimate of FIP cases that will exceed the 60-month time limit in FY 2008 is 10,500 (about 14.5% of the average monthly FIP caseload).
- The number for FY 2007 and estimate for FY 2008 are both within the 20% hardship allowance and may continue to be funded with federal TANF benefits.

FAMILY INDEPENDENCE PROGRAM CASELOAD

October 2007 - September 2008

Number of Cases

■ Total Caseload	77,391	75,351	74,666	73,985	73,851	73,381	72,257	72,147	71,157	69,587	69,097	67,943
------------------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------

- The FIP caseload in September 2008 was 67,943, the lowest since November 2000 when it was 66,762. The Regular-FIP caseload has dropped by 19,707 (22.5%) since April 2007 when it was 87,650 (the recent highest caseload). Michigan's Jobs, Education and Training (JET) welfare reform program, seasonal program trends, and a significant reversal in a Work First program policy are believed responsible for the decreases.

* The September 2008 total excludes 4,708 EFIP (Extended FIP) cases. EFIP cases are those that would have otherwise closed due to earnings but remain open for 6-additional months and receive a \$10 grant for each of those months. EFIP provides important support to families transitioning to self-sufficiency. By retaining EFIP cases in the monthly case count, Michigan increases the percentage of cases meeting state and federal work requirements. The total September caseload (including EFIP cases) was 72,651.

------------	--------	--------	--------	--------	--------	--------	--------	--------	--------	--------

- The average monthly FIP-Regular caseload in FY 2006 was 80,360, the seventh lowest average since FY 1970 when it was 70,609. The monthly averages in FY 2000 - 2005 were lower than the FY 2006 average. The FY 2007 average was 85,389. The year-over-year increase was due to a Work First policy change allowing FIP enrollments / openings prior to participation in Work First orientation. The FIP-Regular caseload in FY 2008 was 72,568, the lowest annual average since FY 2001 when it was 69,543.

- The percent of case closures due to excess earnings was 8.0% in September 2008. Relatively fewer cases are closing due to earnings, as many cases now remain open under Michigan's Extended FIP policy (EFIP).

Note: EFIP cases are those that would have otherwise closed due to earnings but remain open for six additional months and receive a \$10 grant for each of those months. EFIP provides important support to families transitioning to self-sufficiency. By retaining EFIP cases in the monthly case count, Michigan increases the percentage of cases meeting state and federal work requirements.

- The number of children receiving Supplemental Security Income (SSI) has increased for the last three years. In 1996 federal welfare reform legislation established a new childhood disability standard that restricts the number of children eligible for SSI. SSI was also eliminated for recipients whose sole disability was due to drug abuse or alcoholism (3/96).

- Michigan's net child support collections increased steadily from 1994-2002 and then moderately decreased in FY 2003. The FY 2003 decrease in FIP related collections was due to a FIP caseload decrease and a change in TANF regulations limiting the amount of Child Support Arrearages that can be assigned to the state. FY 2004 collections once again moved higher, and then moderately dipped in FY 2005. Collections in FY 2007 were up again, and the highest since FY 2002. FY 2008 data are preliminary.

Data Source: OCS 34a Report (lines 7aG & 8G).

* Beginning in FY 1999 the method for obtaining the non-FIP collections changed. This Federally required change resulted in higher collection figures.

CHILDREN'S SERVICES

Overview

Children's Protective Services (CPS)

Michigan law mandates these services to help prevent harm to children from non-accidental physical or mental injury, sexual abuse, exploitation or neglect by a person responsible for the child's health or welfare. The Department of Human Services (DHS) staff provide assistance through investigating and substantiating reports of abuse and neglect. CPS staff members also work with families to enhance their ability to care for children, refer families to appropriate community resources, coordinate community service programs and provide public information on neglect and abuse. When necessary to promote the safety of children, CPS staff petition the court for removal of children from abuse and neglect situations.

Children's Foster Care

This program is available for children who cannot safely remain in their own homes because of incidents of serious abuse and/or neglect. Foster care services are delivered through a partnership between the DHS and private childcare organizations. About 63% of children placed in a foster home living arrangement are supervised through contracts with private agencies. The program supervises children placed out-of-home and works with families for reunification, if possible. It also seeks permanent homes for children when return is not possible and, when necessary, petitions the court for legal termination of parental rights. Out of home placement includes DHS and private agency foster homes, public shelter homes, residential care centers, private institutions and others.

Adoption

The Department of Human Services and private adoption agencies under contract to the department work to provide permanent homes for children who are permanent state wards under agency supervision. In some cases, DHS can also provide a subsidy to support day-to-day care of the children, treatment of medical conditions, or both. Adoption finalizations of state and court wards totaled 2,417 in fiscal year 1999, 2,775 in 2000, 2,927 in 2001, 2,833 in 2002, and 2,467 in 2003. DHS adoption subsidies provide basic support for adopted special needs children. In January 2004, DHS was paying 23,508 adoption subsidies at an average payment of \$674 per month.

Juvenile Justice Services

Juvenile Justice Services provides for the care and supervision of delinquent youth referred to the department from the circuit courts. A variety of public placement options are available ranging from community-based programs to secure facilities. All treatment programs are comprehensive, individualized and provide educational services, counseling, employment services, family assistance, crisis intervention and recreation. Based on client needs, the department has increased treatment capacity for special needs youth with substance abuse and/or sex offense backgrounds. When possible, the youth's family is incorporated into the total treatment program. To support local alternatives, the department assists local offices in developing family or community-based options to divert youth from residential centers or to accelerate reintegration of youth returned to the community.

The DHS operates residential treatment beds in campus-based programs at the following sites: W. J. Maxey Training School near Whitmore Lake; Shawono Center, Grayling; Nokomis Challenge Program, Prudenville; Adrian Training School, Adrian; Bay Pines Center, Escanaba; Arbor Heights Center, Ann Arbor; and community-based residential care centers in Flint, Bay City, Kalamazoo and Lansing.

Prevention Services to Families

This program offers home-based family-focused services designed to prevent child abuse and neglect by preserving and strengthening family life. Statewide, DHS workers serve high-risk families by providing voluntary support services in the family home; improving parenting, child care, homemaking and money management skills; connecting families to resources; reducing family dependency on social services; and increasing self sufficiency. Successful closure is defined as an improvement in family functioning and the absence of the risk of child abuse and neglect.

CHILDREN'S SERVICES

Special Initiatives

Families First of Michigan

Families First of Michigan is an intensive, safe, short-term in-home crisis intervention and family education program available in all 83 counties. It is designed to serve the most severe multi-problem families in which at least one child is at imminent risk of being placed out of home because of abuse, neglect or delinquency. The resource is available to juvenile courts, tribal social services and community mental health agencies.

Strong Families/Safe Children (SF/SC)

The federal Promoting Safe and Stable Families initiative, named Strong Families/Safe Children in Michigan, is a statewide collaborative effort which involves state and local human services departments (Michigan departments of Community Health and Education, Office of Services to the Aging and the Department of Human Services), public and private services, organizations, universities, courts, businesses, the faith community, parents and recipients. The Department of Human Services is the designated fiduciary for the SF/SC funds and provides program support for the initiative. SF/SC encourages local communities to come together to plan and implement a seamless system of services for children and families. With the goals of safe children and nurturing families, each local collaborative body is charged with assessing local resources, needs and gaps in services, developing a long-term plan for improving positive results for children and families, implementing the plan and tracking performance.

Family Reunification Program

The Family Reunification Program is designed to prevent repeated out-of-home placements and assist in early reunification of children with their families, when out-of-home placement has occurred. Family reunification staff work with families to participate in a strength-based assessment, family or individual therapy, parenting skills classes and family workshops. Staff also conduct ongoing assessments of the risk to children throughout the program. Family reunification staff work as a team.

Child Protection: Working Together As Community Partners

Child Protection: Working Together As Community Partners is a statewide collaborative effort that required local communities to develop a 3-year plan that provides services to children and families that are Categories III and IV (low or moderate risk) Children's Protective Services cases. The purpose of this TANF-funded initiative is to reduce child abuse and neglect as determined by the number of re-referrals. Each county receives annual funds from a \$7 million statewide allocation.

Category I: A court petition is required because a child is unsafe or a petition is mandated in the law for another reason. The perpetrator is listed on the Central Registry.

Category II: There is a preponderance of evidence that abuse or neglect occurred and the initial risk level is high or intensive. CPS must open a services case and the perpetrator is listed on the central registry.

Category III: There is a preponderance of evidence that abuse or neglect occurred and the initial risk level is low or moderate. CPS must assist the family in voluntarily participating in community based services. The perpetrator is not listed on Central Registry.

Category IV: There is *not* preponderance of evidence that abuse or neglect occurred. CPS is to assist the family in accessing community based services.

Category V: There is no evidence that abuse or neglect occurred (e.g., a false complaint; no basis in fact). No action beyond the investigation is required by CPS.

EMPLOYMENT AND TRAINING PROGRAMS

Overview

Family Independence Program families with an adult who receives assistance are required to participate in Michigan Works! Agency (MWA) employment and training programs to increase their employability and find employment, unless they are temporarily deferred. Deferred FIP clients may volunteer to participate in Work First. The employment program components are:

- Work First/JET.
- Food Assistance Employment and Training Program.
- Employment-Related Activities.
- Employment Support Services.
- Family Support Services.
- Family Automated Screening Tool (FAST) & Family Self Sufficiency Plan (FSSP).
- Non-Cash Recipient Employment and Training Program.

WORK FIRST and JET are the employment programs for Family Independence Program applicants and recipients administered by the Department of Labor and Economic Growth (DLEG) through local Michigan Works! Agencies (MWAs). FIP recipients are required to participate with the Work First/JET program unless they are exempt by law. The goal of all Work First/JET participation is FIP case closure due to self-sufficiency. MWAs continue to serve **all** Work First participants until their FIP case is closed by DHS, or until they are referred back to DHS due to failure to participate or becoming deferred. DHS will refer to Work First/JET every non-deferred mandatory participant except teen/minor parents attending GED or high school completion programs; Tribal Contractor or Refugee Contractor program, or Michigan Rehabilitation Services; and VISTA, Job Corps and AmeriCorps participants.

Food Assistance Employment and Training Program: The Food Assistance employment and training program serves Time-Limited Food Assistance-only recipients who are required to work or meet other requirements. The program is provided through the local Michigan Works! Agencies.

Employment-Related Activities: Adult Family Independence Program (FIP) recipients and Food Assistance-only recipients must participate in employment-related activities unless they are deferred. These activities are:

- Employment or self-employment at the applicable federal or state minimum wage for the required number of hours per week
- Full-time elementary or high school attendance by a 16-19 year old FIP dependent child or a teen parent

- Half-time school for Food Assistance-only clients
- 20 hours per week of unsubsidized employment, plus 10 hours of classes for high school or GED completion, for FIP adults
- 10 hours per week of unsubsidized employment, plus 10 hours of vocational or occupational training classes, plus 10 hours of study time, for FIP adults
- 30 hours per week in condensed vocational education
- Full-time internships, practicums and clinical experience
- Participation in VISTA, Job Corps or AmeriCorps
- Participation (20/30/35 hours per week) in a HUD or MSHDA transitional housing program

Employment Support Services (ESS) and Emergency Employment Support Services are available from DHS and the MWA to support a recipients' participation in employment and training activities. Emergency ESS are available from DHS for parents or caretaker relatives working at least 20 hours per week in families receiving child care, food assistance or Medicaid. Emergency ESS are available from the MWA for adults or caretaker relatives in families receiving child care or food assistance.

Family Support Services are available through DHS for FIP recipients who are participating in Work First or recipients who are deferred to prepare them for when their deferral ends. These are services not available through the Work First program, such as counseling and classes in life skills, which address family issues that will help families to self-sufficiency.

Family Automated Screening Tool (FAST) & Family Self Sufficiency Plan (FSSP): All work eligible individuals (WEIs) and non WEIs receiving FIP or RAP are required to complete the FAST within 30 days and the FSSP within 60 days of case opening or member activation. The FSSP was created to allow DHS and their client service providers to share information about mutual clients for optimal case management with the goal of self-sufficiency whenever possible. The FAST is a Web-based initial screening tool and it's completion is the client's first required work related activity.

Non-Cash Recipient Employment and Training Program: Adults or caretaker relatives in families receiving child care, Food Assistance or Medicaid are eligible for employment and training activities from the MWA. The MWAs have lists of potentially eligible participants from DHS and will use them for outreach.

FAMILY INDEPENDENCE PROGRAM FEDERAL PARTICIPATION RATE TARGETS AND MICHIGAN ADJUSTED AND ACTUAL PARTICIPATION RATES

Participation Rates: Federal law requires that states receiving funding under the Temporary Assistance for Needy Families block grant (TANF) must meet work participation rates for the cash assistance caseload. States must achieve the following minimum work participation rates (as a percentage of the total cash assistance caseload). Federal work participation rate targets were established with the passage of welfare reform. These rates were subsequently adjusted to recognize the reductions in public assistance caseloads that states have experienced since 1995 and 2005. The following chart displays both Federal rates and adjusted target rates along with Michigan's actual participation rates.

* **Poverty Thresholds** : The poverty thresholds for the United States are computed annually by the Bureau of the Census as a means for counting the nation's low-income population. The poverty thresholds form the basis for all other poverty levels used by the Federal Government including the poverty income guidelines (discussed on the following page). The poverty thresholds are generally used by the Department of Human Services and others for determining the number of people in poverty and for presenting data that classify low-income people by type of residence, race, and other social, economic and demographic characteristics. The poverty thresholds are updated annually by the percentage change in the Consumer Price Index. The Department of Human Services does not calculate separate poverty thresholds for Michigan. However, for budget and program purposes DHS does calculate poverty thresholds for future years based on projected increases in the CPI-U (for all urban consumers).

** Figures for CY 2007 are FINAL Census Bureau amounts released in August 2008. CY 2008 and CY 2009 figures are based on U.S. CPI-U increases of 4.5% in 2008, and 3.4% in 2009. I.e. Fall RSQE forecast of the U.S. CPI-U.

* The **Federal Poverty Income Guidelines** (above) are a simplified version of the Federal Government's official statistical poverty thresholds (previous page). Developed and issued by the Department of Health and Human Services (HHS), they are used by the Department of Human Services and others for administrative purposes such as determining whether a person or family is financially eligible for assistance or services under a particular Federal program.

** Final figures for CY 2008 were published in the Federal Register on January 23, 2008 (Volume 73, Number 15), pages 3971-3972.

** CY 2009 Poverty Income Guidelines are Budget Division projections (October 2008).
